THE COMMUNITY ENGAGEMENT AND SERVICE-LEARNING CENTER
SERVING THE JOHNS HOPKINS UNIVERSITY
SCHOOLS OF PUBLIC HEALTH, NURSING, AND MEDICINE

ANNUAL REPORT 2021-2022

Our Mission and Work

SOURCE's mission is to engage the Johns Hopkins University (JHU) health professional schools and Baltimore communities in mutually beneficial partnerships that promote health and social justice. Since 2005, SOURCE has connected students, faculty and staff from the JHU Schools of Public Health, Nursing, and Medicine with meaningful, mutually beneficial community engagement opportunities in Baltimore City.

SOURCE partners with over 100 community-based organizations (CBOs) in Baltimore, and supports a wide range of engagement opportunities that respond to community-identified needs. These engagement opportunities include:

- Intensive, year-long **academic-community partnership and training programs**
- For-credit **service-learning courses** and **degree requirement experiences**
- Special events and **programmatic series** held in connection with community partners

Driven by our core values of **reciprocity, justice, service, and collaboration**, SOURCE is proud to have made a lasting impact in 2021-2022 working with our partner organizations in Baltimore and JHU schools.

Navigating COVID-19 Challenges

Despite nearly another full year of virtual engagement due to COVID-19 restrictions, many of SOURCE's service-learning programs and courses continued as usual in 2021-22. While individual in-person activities were allowed, in-person group service was not approved by JHU until April 2022.

2021-2022 By The Numbers

Johns Hopkins Health Education and Training (HEAT) Corps

JOHNS HOPKINS

HEALTH EDUCATION & TRAINING CORPS

Now in its second year, Johns Hopkins Health Education And Training Corps (HEAT Corps) started is a collaboration between Medicine for the Greater Good, Office of Economic Development, SOURCE and several partners across the Johns Hopkins Institutions. SOURCE recruits Johns Hopkins volunteers from the three health professional schools to provide health education and training regarding COVID-19 to K-12 youth.

The curriculum is taught virtually in schools throughout the United States as well as several other countries, with a particular focus on Baltimore City Public Schools. Through a series of 45-minute sessions, the HEAT Corps aims to heighten student awareness about the science of COVID-19 and the public health response. Hopkins volunteers had a unique opportunity to develop their own health education and teaching skills, while simultaneously supporting youth in their understanding of COVID-19.

Volunteers received training and guidance from a team of Johns Hopkins faculty and staff in public health knowledge of how the pandemic started, the science of the vaccines, and other relevant topics, while teaching K-12 students what roles they can play in ending the pandemic.

2021-2022 Program Highlights

Baltimore Action Projects

SOURCE collaborates with the Bloomberg American Health Initiative to support **Baltimore Action Projects**. These projects focus on the five areas identified by the Initiative to reshape the national public health agenda: Addiction and Overdose, Obesity and the Food System, Violence, Risks to Adolescent Health, and Environmental Challenges. The projects provide an opportunity to tackle these issues in Baltimore.

In partnership with the Initiative, SOURCE and community-based organizations (CBOs), Baltimore Action Projects are community-identified projects which directly address the Initiative's focus areas. Through the Initiative's funding, graduate students from the Johns Hopkins Bloomberg School of Public Health and Johns Hopkins School of Nursing are hired to work a minimum of 100 hours to complete Baltimore Action Projects in partnership with CBOs.

In 2021-2022, the fifth year of the program, **nine** Baltimore Action Projects were completed, including:

"Strategic Community Outreach for WIC"
with B'More for Healthy Babies

"Structural Barriers to Nutritional Attainment"
with EndsideOut, Inc.

"Parents in Recovery Together: Understanding the Impact of Supportive Housing on Families in Recovery"
with Family Recovery Program

contributed in the
community through
Baltimore Action Projects

Community Outreach Program at the Johns Hopkins School of Nursing

SOURCE collaborates with the Johns Hopkins School of Nursing to coordinate the Community Outreach Program (COP). Through COP, nursing students are placed with a community-based organization for the academic year to gain practical experiences in public health nursing and service-learning. At the end of the 2021-2022 academic year:

13 Students reported their experiences via online COP log

10 Community-based organizations were served

2,284 People served directly through student actions

587 hours of service
contributed in the
community through **COP**

2021-2022 Program Highlights

SOURCE Service Scholars

Thirteen students from BSPH and JHSOM successfully completed the **SOURCE Service Scholars (SSS) Program** in 2021-2022. The program pairs Scholars with partner community-based organizations who have designed projects to address their urgent programmatic and client priorities. Scholars commit themselves to recruit and lead small teams of volunteers to complete these projects in the academic year, while simultaneously receiving training on:

- Foundations of effective community partnerships and service-learning
- Volunteer management and cultivation
- Design and facilitation of critical reflection

- Challenges & opportunities of working with Baltimore communities
- Project sustainability

Over the course of the Scholar year, **69 unique JHU student volunteers** were recruited to support SOURCE Service Scholar projects. A total of **366 hours** were logged from these additional volunteers. The successful Scholars themselves dedicated a total of **2,069 hours**.

Total hours of JHU engaged volunteers and Scholars amounted to **2,435 hours in 2021-2022**.

2021-2022 Program Highlights

Connection Community Consultants Program

The Connection is SOURCE's short-term, small team consulting program which responds to requests from community partners. In 2021-2022, **5 projects** requested by three SOURCE community partners were completed through the program. A total of **15 students** participated in the program. Highlights of the 2021-2022 Connection Community Consultants projects include:

"Equitable Out of School Time for Kids & Youth Programs" with Banner Neighborhoods

Banner Neighborhoods Community Corporation was preparing to apply for American Rescue Plan Funds in order to expand Banner Neighborhoods sports programming for youth age 9-24. For the application, Banner wanted a **literature review on the effects of COVID-19 on learning loss for children and youth** in areas including: missed school time, learning loss, out of school programming, and workforce development.

"Increase Community Engagement around Food Security Programs " with Good Harvest

Good Harvest Community Kitchen was looking to expand its social media presence in order to enhance brand awareness and engage Good Harvest's existing supporters and stakeholders in programming initiatives, building an even larger, more robust community network. **The final deliverable was a strategic plan for different social media platforms for various audiences.**

"Developing an Instagram Campaign Series for Harm Reduction" with SPARC

SPARC wanted to develop a resource library and associated Instagram campaign. They were interested in creating a discussion about harm reduction, providing connections to services/resources in Baltimore, and connecting with non-harm reduction professionals to create greater understanding. **Students developed a small library of Instagram posts** that work cohesively together and achieve SPARC's goals.

2021-2022 Program Highlights

SOURCE Service-Learning Academy

Our SOURCE Service-Learning Faculty and Community Fellows Program was rebranded as the **Johns Hopkins SOURCE Service-Learning Academy** as we welcomed our *first national cohort of fellows* this year. In addition to **five JHU faculty fellows** and **three Baltimore community fellows**, we accepted **three faculty fellows from a diverse range of institutions** across the United States into the 2021-2022 cohort.

The JHU SOURCE Service-Learning Academy is one of the most comprehensive service-learning fellows programs in the country, and includes a rare feature of training faculty and community fellows together on key elements of service-learning, social justice, and academic-community partnerships.

This newest growth of the Academy reflects our commitment to being a leader in critical service-learning in the health professions, growing our reach for communicating our impactful partnerships in Baltimore and using them as a model of social change to spread across the country and around the globe.

The program includes:

- ∞ 2.5-day kick-off seminar
- ∞ 1-on-1 advising for faculty course development
- ∞ Bi-monthly required cohort meetings
- ∞ Bi-monthly optional fellows meetings for all current and past fellows
- ∞ Final presentation and celebration
- ∞ Community Fellows project to support SOURCE

2021-2022 SOURCE Service-Learning Faculty Fellows

Urmi Desai, MD

*Assistant Professor of Medicine
Center for Family and Community Medicine

34,954 hours of service to the community through **service-learning courses**

HIV Counseling & Testing Program

Following a year in which SOURCE’s HIV Counseling and Testing Program was on hold due to the pandemic, the program returned in 2021-2022. SOURCE successfully recruited, trained, and retained **29 students** from across the JHU health professional schools, including 13 from BSPH, 6 from SON, and 10 from SOM.

All volunteers completed training in order to become certified by the state of Maryland as HIV

counselors, and served as HIV counselors/testers at one of the three participating sites:

- **Johns Hopkins Hospital Emergency Dept**
- **Harriet Lane Clinic**
- **Baltimore Crisis Response, Inc.**

816 hours of service to the community via the **HIV Counseling and Testing Program**

2021-2022 Program Highlights

Baltimore Week 2021

Early each academic year, SOURCE hosts **Baltimore Week**, our annual celebration of the Baltimore community through a social justice lens. In 2021, our series of activities included:

- Canned Food Donation Drive
- Panel: "Community Engagement: Dispelling Myths/Providing Tips"
- "A Concert for the Cosmos" Livestream Performance by Afro House
- Virtual East Baltimore Bus Tour
- Partner Panel: "Engaging Baltimore's Youth"

National Volunteer Week 2022

In April 2022, SOURCE held its 18th annual **National Volunteer Week** in order to thank and recognize those that gave their time and talent to support Baltimore. Our series of events included:

- SWEET Seminar with the Anna Baetjer Society
- Community Outreach Program Poster Session
- SOURCE Service Scholars Poster Session
- Partner Panel, "Bolstering a Healthy Environment in Baltimore"
- SOURCE Community Service Awards
- Service Day with Thread

SOURCE Introductory Events

Each academic year, SOURCE aims to make current and prospective students aware of the opportunities that exist for impactful community engagement with our partners in Baltimore. SOURCE reaches students through various fairs, orientations and information sessions. In

2021-2022, SOURCE's Introductory Events included:

- **9** SOURCE Information Sessions
- **8** Orientation Presentations & Activities Fairs
- **6** Accepted Students Presentations

2021-2022 Highlights

Advancing Research at SOURCE

In 2021-2022, SOURCE continued to strengthen its research agenda and scholarly communication. This year, SOURCE faculty and senior fellows contributed original research to public health, nursing, and education fields.

Aligned with our SOURCE annual goals, we focused on strengthening our institutional partnerships, evident in the diversity of writing teams represented in our research materials published and presented this year.

Peer Reviewed Research Articles

2021-2022 Highlights

Social Justice Initiatives

SOURCE brings intentional social justice orientation into our community engagement and critical service-learning work. Two key approaches were adopted to move social justice priorities into external spaces and directly blend justice reflection and practices into our educational initiatives:

Leveraging institutional partnerships

In alignment with SOURCE annual goals, team members championed social justice principles while serving as representatives on multiple strategic university and school-wide committees including:

- *JH Baltimore Community Engagement Program Leaders*
- *JHU Roadmap on Diversity and Inclusion*
- *Johns Hopkins Diversity Leadership Council*
- *JHU Sustainability Council*
- *SON MSN Curriculum Committee*
- *SON Teaching and Learning for Diversity, Equity and Inclusion Committee*
- *BSPH Baltimore Community Engagement Committee*
- *BSPH Teaching Council*
- *BSPH Inclusion, Diversity, Anti-Racism and Equity (IDARE)*
- *BSPH School-wide Practice Committee*
- *BSPH HBS Curriculum Committee*
- *BSPH HBS Life Gets Better Committee*
- *BSPH HBS Practice Committee*
- *BSPH HBS Social Justice Masters Program Working Group*

Integrating justice into current programming

Team members facilitated justice-oriented learning opportunities within annual activities to highlight concepts of equity and enhance faculty, student and community partner understanding of how health professionals develop a social justice lens for personal growth, professional skills and civic engagement. Highlights from 2021-2022 include:

- SOURCE Service-Learning Academy summer session with faculty and community fellows focused on *"Designing and Evaluating Justice-Based Service-Learning"*
- SOURCE Partner Panel events focused on *"Supporting Baltimore's LGBTQ Community"*, *"Promoting Mental Health and Wellbeing in Baltimore"*, *"Housing, Homelessness and Related Advocacy Efforts in Baltimore"* and *"Bolstering a Healthy Environment in Baltimore"*
- "Conversations for student perspectives on current issues" with SOURCE Student Governing Board representatives consisted of two justice-focused meetings discussing curriculum changes and JHU police force perspectives
- SOURCE Service Scholar Academy sessions focused on *"Designing Critical Reflection"* and *"Exploring Identity, Positionality and Working with Community"*
- A range of SOURCE-supported critical service-learning courses in BSPH and SON

Student Groups Who Collaborated With SOURCE in 2021-2022

SOURCE collaborated with numerous student groups across the three Johns Hopkins health professional schools, including organizing donation drives and volunteering with partnering CBOs. Group service activities were not permitted by JHU until April 2022 due to the pandemic. SOURCE would like to thank and recognize the following groups for their outstanding collaboration and community service activities in Baltimore:

Bloomberg School of Public Health

- Anna Baetjer Society
- Public Health Students for Reproductive Justice

School of Nursing

- Black Student Nurses Assoc.
- Fellowship of Christian Nurses
- LGBTQI+ Health Initiative
- Pediatric Interest Group

School of Medicine

- Bamboo Sprouts
- ViSION
- Student National Medical Assoc.
