5. **Can You Read, Speak, and Write in More Than One Language? Sign Up for SOURCE’s “Languages” Volunteer Program!**

Over the years, SOURCE has received various requests from our partnering community-based organizations for assistance working with clients who speak little to no English. In order to assist our community partners, we are looking for Hopkins students, faculty, and staff who would be interested in using their language skills to respond to community-identified needs. Types of assistance may include: translating documents, translating during non-medical appointments (such as school orientations), phone assistance, and much more. Volunteers could be asked to be available by phone, computer, or meeting at a public location. The program will not include any medical interpreting, and will not send volunteers to any private residencies. Over 30 requested languages! If you would be willing to be called upon for your language skills, please enter your information into our database by going to: [SOURCE Language Database](http://twitter.com/JHUSOURCE).

While we cannot guarantee that a request will be made, you never know when your language skills may be able to assist someone in need!
