ANNUAL REPORT 2020-2021

Commitment to Community Engagement as COVID-19 Persists

As the pandemic continued to shape all aspects of our public, personal, and professional lives, SOURCE and partner community-based organizations (CBOs) faced challenges together and adapted to fully virtual community engagement in 2020-2021. This shift to remote collaboration and away from in-person, on-site service resulted in decreased engagement opportunities and temporary suspension of several SOURCE programs, including HIV Counseling and Testing, the Identity Clinic, and Days of Service.

Yet with an entire year of remote collaboration, SOURCE successfully implemented many of our programs virtually, including the Community Outreach Program at the School of Nursing, Baltimore Action Projects, the Baltimore Community Practicum course, SOURCE Service Scholars, and the Connection Community Consultants.

While some course-based service-learning projects did not run because faculty and CBOs were unable to transition to remote service-learning activities, SOURCE was able to assist a number of faculty, students, and partners in pivoting to online service-learning. For example, SOURCE continued supporting the School of Medicine's TIME: Health Disparities course. Instead of in-person activities, SOURCE organized online community partner panel discussions and led 3 virtual bus tours with debriefing sessions with local resident leaders for all 120 first-year medical students.

Please note that reported SOURCE engagement numbers exclude counts of JHU students, faculty, and staff who volunteered to support the University and health system's COVID-19 response activities. Total SOURCE community engagement and service-learning numbers are in addition to the internal volunteer data generated through assisting JHU and JH Medicine.

Our Mission and Work

SOURCE's mission is to engage the Johns Hopkins University (JHU) health professional schools and Baltimore communities in mutually beneficial partnerships that promote health and social justice. Since 2005, SOURCE has connected students, faculty and staff from the JHU Schools of Public Health, Nursing, and Medicine with meaningful, mutually beneficial community engagement opportunities in Baltimore City.

SOURCE partners with over 100 community-based organizations (CBOs) in Baltimore, and supports a wide range of engagement opportunities that respond to community-identified needs. These engagement opportunities include:

- Intensive, year-long **academic-community partnership and training programs**
- For-credit **service-learning courses and degree requirement experiences**
- Special events and **programmatic series** held in connection with community partners

Driven by our core values of **reciprocity, justice, service, and collaboration**, SOURCE is proud to have made a lasting impact in 2020-2021 working with our partner organizations in Baltimore and our JHU schools.

Johns Hopkins Health Education and Training (HEAT) Corps

Johns Hopkins Health Education And Training Corps (HEAT Corps) started in 2020 as a collaboration between Medicine for the Greater Good, Office of Economic Development, SOURCE and several partners across the Johns Hopkins Institutions. SOURCE recruits Johns Hopkins volunteers from the three health professional schools to provide health education and training regarding COVID-19 to K-12 youth.

The curriculum is taught virtually in schools throughout the United States as well as several other countries, with a particular focus on Baltimore City Public Schools. Through a series of 45-minute sessions, the HEAT Corps aims to heighten student awareness about the science of COVID-19 and the public health response. Hopkins volunteers had a unique opportunity to develop their own health education and teaching skills, while simultaneously supporting youth in their understanding of COVID-19.

Volunteers received training and guidance from a team of Johns Hopkins faculty and staff in public health knowledge of how the pandemic started, the science of the vaccines, and other relevant topics, while teaching K-12 students what roles they can play in ending the pandemic.

2020-2021 PROGRAM HIGHLIGHTS

Baltimore Action Projects

SOURCE collaborates with the Bloomberg American Health Initiative to support **Baltimore Action Projects**. These projects focus on the five areas identified by the Initiative to reshape the national public health agenda: Addiction and Overdose, Obesity and the Food System, Violence, Risks to Adolescent Health, and Environmental Challenges. The projects provide an opportunity to tackle these issues in Baltimore.

In partnership with the Initiative, SOURCE and community-based organizations (CBOs), Baltimore Action Projects are community-identified projects which directly address the Initiative's focus areas. Through the Initiative's funding, graduate students from the Johns Hopkins Bloomberg School of Public Health and Johns Hopkins School of Nursing are hired to work a minimum of 100 hours to complete Baltimore Action Projects in partnership with CBOs.

In 2020-2021, the fourth year of the program, **seven** Baltimore Action Projects were completed.

SOURCE.jhu.edu/BAP

Some highlights include:

"Understanding the Impact of Violence on Latinx and Immigrant Communities in the Greater Baybrook Neighborhoods"
with Greater Baybrook Alliance

"Planning for Food Equity and Resiliency in Response to COVID-19"
with Baltimore Food Policy Initiative

"Improving Access to Resources for Sex Worker Communities in Southeast and South Baltimore"
with Southeast Community Development Corporation

contributed in the community
through **Baltimore Action
Projects**

Community Outreach Program at the Johns Hopkins School of Nursing

SOURCE collaborates with the Johns Hopkins School of Nursing to coordinate the Community Outreach Program (COP). Through COP, nursing students are placed with a community-based organization for the academic year to gain practical experiences in public health nursing and service-learning. COP students and their designated community partners worked together virtually this year.

At the end of the 2020-2021 academic year:

23
Students reported their experiences via online COP log

12
Community-based organizations were served

2,039
People served directly through student actions

1,132 hours of service
contributed in the community
through COP

2020-2021 PROGRAM HIGHLIGHTS

SOURCE Service-Learning Faculty & Community Fellows Program

Our SOURCE Service-Learning Faculty and Community Fellows Program accepted **six** faculty fellows and **three** community fellows into the 2020-2021 cohort. SOURCE's Fellows Program is one of the most comprehensive service-learning fellows programs in the country, and includes a rare feature of training faculty and community fellows together on key elements of service-learning, social justice, and academic-community partnerships.

The Fellows Program includes:

- 2.5-day kick-off seminar
- One-on-one advising for faculty course development
- Bi-monthly required cohort meetings
- Bi-monthly optional fellows meetings for all current and past fellows
- Final presentation and celebration
- Community Fellows project to support SOURCE

2020-2021 SOURCE Service-Learning Faculty Fellows

Lucine Francis, PhD, RN
Assistant Professor
School of Nursing

Nina Martin, PhD
Assistant Scientist
Bloomberg School of Public Health

Phil McNab, PhD
Education Program Specialist
Johns Hopkins Center for a Livable Future

Sarah M. Murray, PhD
Psychiatric Epidemiologist & Assistant Professor
Bloomberg School of Public Health

Vinciya Pandian, PhD, MBA, MSN, RN,
ACNP-BC, FAANP, FAAN

2020-2021 PROGRAM HIGHLIGHTS

SOURCE Service Scholars

Twelve students from JHSPH, JHSON and JHSOM participated in the SOURCE Service Scholars (SSS) Program in the 2020-2021 cohort. The program pairs Scholars with partner community-based organizations who have designed projects to address their urgent priorities. Scholars commit themselves to recruit and lead small teams of volunteers to complete these projects in the academic year, while simultaneously receiving training on:

- Foundations of effective community partnerships and service-learning
- Volunteer management and cultivation
- Design and facilitation of critical reflection
- Challenges & opportunities of working with communities
- Project sustainability

SOURCE Service Scholars Program Poster Session - Apr 21, 2021

Over the course of the Scholar year, **48 unique JHU student volunteers** were recruited to support SOURCE Service Scholar projects. A total of **410 hours** were logged from these additional volunteers. The successful Scholars themselves dedicated a total of **1,692 hours**. *Total hours of JHU engaged volunteers and Scholars amounted to 2,102 hours in 2020-2021.*

Connection Community Consultants Program

The Connection is SOURCE's short-term, small team consulting program which responds to requests from community partners. In 2020-2021, **3 projects** requested by three SOURCE community partners were completed through the program. A total of **13 students** participated in the program. Highlights of the 2020-2021 Connection Community Consultants projects include:

“Measuring Advocacy Work in Intimate Partner Violence” with House of Ruth Maryland

House of Ruth Maryland was looking to conduct a literature review of tools used to measure outcomes in intimate partner violence. This was a subset of their Measuring Success Outcomes Project which works to provide support to partner organizations to find diverse ways to measure outcomes.

The final deliverable was a report identifying specific tools regarding IPV outcome measurement.

House of Ruth Maryland

“Strengthening the Equitable Lens in Choosing Vendors: Local and National” with Civic Works

Civic Works is a non-profit that transforms Baltimore neighborhoods through education, skills development and service learning. Civic Works was looking to diversify their vendors by identifying vendors who show equitable hiring, ownership, leadership and fairness in their practices. Consultants worked with Good Business Works Baltimore staff and Civic Works staff who make purchases from various vendors throughout Baltimore.

The final deliverable was a presentation and updated database that showed all companies that qualify.

Civic Works

“Julie Community Center Grant Template” with Julie Community Center

Julie Community Center was looking to review existing language and recent grant proposals and gather background information on the Julie Community Center. Consultants worked with staff to develop a letter of inquiry template that the Julie Community Center can send to prospective funders.

The final deliverable was a grant template and Letter of Interest for use by Julie Community Center.

2020-2021 PROGRAM HIGHLIGHTS

Baltimore Week 2020

Early each academic year, SOURCE hosts Baltimore Week, our annual celebration of the Baltimore community through a social justice lens. In 2020, our series of activities included:

- LGBTQIA+ Upstander and Allyship Training
- Panel: “Social Justice: What’s Your Function?”
- Panel: “A Conversation on Environmental Justice”
- Practice: Environmental Justice Sustainability Circle
- Panel: “Codifying Safety”

National Volunteer Week 2021

In April, SOURCE held its 17th annual **National Volunteer Week** in order to thank and recognize those that gave their time and talent to support Baltimore. The weeklong celebration was held virtually and featured:

- “Cross-Section” with the Anna Baetjer Society
- Film, *“Beyond Borders: Undocumented Mexican Americans”*
- Panel, “Serving our Immigrant and Refugee Neighbors”
- SOURCE Virtual Community Service Awards Ceremony
- SOURCE Community Outreach Program Poster Session

Practicing Justice Series

SOURCE brings intentional social justice orientation into community engagement and service-learning work. Teaching how to be equitable and how to “practice” justice is not part of professional, academic development. The purpose of the Practicing Justice Series to apply the concepts of equity into practices of critical reflection and understanding how we can perform justice as health professionals. In the 2020-2021 academic year, **15 Practicing Justice events** were held virtually.

- **15 total** Practicing Justice sessions: **522 attendees**

Some highlights of Practicing Justice included:

- *“Medical Apartheid and Equity in Care”*
- *“Health Access and the Digital Divide”*
- *“Grounding and Mindfulness Training”*
- *“Space to Breathe”*

SOURCE Introductory Events

Each academic year, SOURCE aims to make current and prospective students aware of the opportunities that exist for impactful community engagement with our partners in Baltimore. SOURCE reaches students through various fairs, orientations and information sessions.

In 2020-2021, SOURCE’s **16 Introductory Events** included:

- **8** SOURCE Information Sessions
- **4** Orientation Presentations
- **3** Accepted Students Presentations
- **1** Activities Fair for New Students

MEDICAL APARTHEID & EQUITY IN CARE

This event is designed to provide students with a better understanding of the interpersonal and structural barriers to health equity through the medium of health education. Through a panel discussion and critical reflection session participants will gain an understanding of the way racism is an influential ideology of health, professional practice and education tools. Moreover, participants will practice steps of analysis, and action to address oppression in health practice and in their personal lives.

Panelists

Wed, October 28
5:00 - 7:00 pm EDT

ENVIRONMENTAL JUSTICE SERIES
HELD AS PART OF BALTIMORE WEEK 2020

Wed, October 7
Panel: A Conversation on Environmental Justice
12:00 - 1:20pm EDT

The goal of this event is to provide a reflective space to discuss environmental justice while providing a brief introduction to the three tenets of sustainability-people, planet, and profit. This panel will consist of panelists from CHS and Hopkins students who will discuss their passions within environmental justice, the importance of intersectionality when discussing and doing environmental justice work, and the struggles and the improvements needed within current environmental justice movements. Registration required.

UNDOCUMENTED MEXICAN AMERICANS

Advancing Research at SOURCE

In 2020-2021, SOURCE continued to strengthen its research agenda. This year, SOURCE faculty and senior fellows contributed original research to public health, nursing, and education fields focusing on:

- Institutionalizing Community Engagement in Curriculum
- Service-Learning and Faculty Development
- Health Professional Education: Theory and Practice

SOURCE faculty spoke to national audiences at multiple conferences in 2020-2021. We continue to lay groundwork for sustainable research practices that expand our partnerships with centers and faculty at the Johns Hopkins health professional schools, and we look forward to further success in the coming years.

Grants

This year, SOURCE closed two lead grants awarded from the JHU Provost's Office and the CDC, respectively. **JHU Provost's DELTA Grant**, "Building a Global-Local Connection: Developing a Framework for Online Service-Learning," resulted in a fully operating, national award-winning online service-learning course, multiple presentations and a peer reviewed paper. The **CDC Learning Hubs Grant**, "A Network Analysis of Community-Based Organizations Addressing Social Determinants of Health in Baltimore City," resulted in a student-community collaboratively designed community-based organization search tool and a scientific presentation.
