Julie Community Center
100 S. Washington Street Baltimore, Maryland 21231
Phone: 410.675.6300   Fax: 410.732.7827

We are dedicated to building community.

- To promote individual self-esteem and community pride
- To develop a united and self-determining community
- To create strong links of friendship, trust, and cooperation in our community

We work with others:
We are active in:

Advocacy

Our People's Rights Office acts as an advocate for persons and families in critical need. Through direct assistance and referrals, we help them solve their problems, such as food, clothing, housing utilities, and transportation.

Education

Neighborhood adults, trained as HEALTH PROMOTERS, coordinate workshops in parenting, promote support activities for parents and families, carry out public health projects, and do special projects with elderly and with children.

The Center reaches out to neighborhood YOUTH all year round through the After School Program, youth enrichment activities, and a Summer Youth Camp for children, ages 6-12. Teens act as counselors in a job corps, participate in leadership workshops, and work as peer educators in public health projects. The Center is a safe space and a fun place for all youth.

We coach individuals who are working towards a GED and, when possible, offer job training for persons seeking economic independence.

We host a Notre Dame AmeriCorps (NDA) program which trains members to act as full-time reading tutors in and advocates for inner-city schools.

Community Organizing

We help develop neighborhood and community action that promotes a multi-cultural and economically mixed neighborhood and works to guarantee an environment that is healthy, stable, and safe. Top priority action for 1999-2000 is organizing a pilot full-service school in southeast Baltimore.

Director: Sr. Barbara Ann English
